# Introducing Comprehensive Medication Review (CMR)

by Streu's Pharmacy Bay Natural

A personal meeting between **YOU** and your **PHARMACIST**

An opportunity to **PRIVATELY DISCUSS** your medications

An opportunity to have **ALL of your medications** reviewed by your pharmacist

Recommended changes **COMMUNICATED** to your doctor on your behalf

In some cases, patients have found ways to **SAVE** money on their medications.

## Frequently asked questions...

### Doesn't the pharmacist already review my medications?

As pharmacists, we check your prescriptions for accuracy, drug interactions, appropriateness, and safety. The **CMR** provides the opportunity for a private, sit-down meeting to talk about ALL of the medications you take, even if they are over-the-counter or filled at another pharmacy.

### What about my doctors? Shouldn't they be involved?

As pharmacists, we work as a team with your doctor(s) with the common goal of improving your health. With your approval, the **CMR** will be shared with your doctor(s) who must approve any changes for them to occur.

### What if I get my prescriptions from another pharmacy instead of or in addition to Streu's?

**Not a problem!** With your help, we will gather information from you, other pharmacies, as well as your doctor(s). We have found that doctors are happy to team up with us to bring all of the pieces of your healthcare together into one all-inclusive plan for wellness.

### Sounds like I need this, so how much does it cost?

#### **Medicaid Patients:**

This service may be covered by your insurance; ask a pharmacy associate for details.

<b>30 Minute</b>	\$75*
<b>60 Minute</b>	\$120*

\*Includes an up-to-date medication list and a written plan for the future.
